Bismarck, ND 58502-01017

I do not understand how this project even came under consideration when the Missouri River and its reservoirs are down most of the time. As it is, the downstream states want more water released than Montana and the Dakotas have to spare.

You have only to look at Lake Sakakawea to see how it affects the towns around it. First, the beautiful, productive valley was flooded, then the waters recede so a lot of it is just a mess. That will only get worse if water is diverted to the Red River.

Please DO NOT allow this to happen.

Sincerely,

Myrna R. Tvetter
