On behalf of the residents of Hobart Township, Otter Tail County, Minnesota, we would like to express our opposition to the proposed Red River Valley Water Supply Project in our area. In our opinion, this idea is not taking into consideration the impact on our local water supplies in the case of a major drought.

Many of our farmers, businesses and citizens rely on the water supply you propose to pump to the Fargo-Moorhead area. Our area relies on this water to sustain our local economy. In the case of a major drought, this project would most likely affect a much larger area, which would leave our area with a reduced ability to recharge the aquifers.

It is our opinion that the Fargo-Moorhead area should consider a growth rate that is sustainable by its local natural resources. We are greatly and unanimously opposed to this plan for our area and ask that the plan be dropped from consideration.

Sincerely,  
Hobart Township Board  
Steve Bruhn, Chairman  
Ray Sonnenberg, Supervisor  
Terry Hockett, Supervisor  
Brian Glawe, Treasurer  
Debi Moltzan, Clerk
